School Partnership Committee

Hello All-

This report will be brief since the 2023-2024 school year has ended. After the success with last year's five author visits, our School Partnership Committee is ready to prepare for the 2024-2025 school year.

As the committee moves forward, our strategy is to reach out to local authors who write children's books. We will coordinate our findings with our two participating schools- the Early Learning Center and Lord Baltimore- as far as agreeable dates and times.
